

County of San Diego PALOMAR AIRPORT REDEVELOPMENT PROJECT

Update #4
May 2008

Upcoming Activities

Construction Activities

During the month of May, the contractor will perform the following daytime activities:

- Construction will continue on the new terminal, including steel framework.
- Work will continue on the new parking lot adjacent to Palomar Airport Road.
- Work will continue along Palomar Airport Way across from the new terminal.
- SDG&E service work is likely at Palomar Airport Road and McClellan Way
- Work to begin on Taxiway C for removal and replacement of existing surface.

Construction Impacts:

- Construction vehicles and supply trucks will be entering and leaving the project site.
- Work on Taxiway C will be done in two phases; no closures are anticipated.
- Throughout the month, pedestrians will be directed to either the north or south side of Palomar Airport Way.
- Due to electrical service work, traffic control by flaggers may be instituted.
- Shuttle service for airline passengers from parking lots to the terminal will have wait times of 15 minutes or less.
- As always, please be courteous while driving at Palomar Airport.

Project Description

Redevelopment Elements

Reorganization and modernization of Palomar Airport will include construction of a new terminal building with improved pedestrian access and aircraft parking area.

Construction to be completed in 2008:

- 18,000-square-foot, state-of-the-art terminal including high-tech passenger and baggage screening areas, spacious lobby and boarding lounge.
- New aircraft ramp.
- Three parking lots, including an elevator and walkway to the terminal.

Safety improvements include:

- Aircraft taxiway upgrade.
- New jet blast fence for Runway 24.
- Runway 24 infield leveling.

Disturbed areas will receive landscaping improvements when construction activities are completed.

Additional Information

General Traffic Information

- In May, increased road work will continue. Flaggers will be in place when needed to control traffic on McClellan Way. There may be lane closures on Palomar Airport Road.

General Work Hours

- Typical work hours will be M-F from 7 a.m. until 4:30 p.m. Some longer hours may be needed for operations that cannot be completed in a normal work day. Night work is not anticipated in May.
